

Fruit kebabs are simple and fun.

What you need:

- a variety of fruits - melon, orange, plum, mango, water melon, kiwi, grapes, pear, apple, strawberries
- if you are using apples and pears you will need lemon juice to dip the pieces in to stop them from browning
- kebab sticks

What you need to do:

- peel the fruit if necessary
- chop the fruit into chunks
- thread the fruit chunks on to the kebab sticks alternating the fruits to make them interesting

Serve the kebabs with yoghurt or chocolate sauce for dipping!

Simple chocolate sauce

Melt 100g chocolate and whisk in 50g double cream.

It will go thick and be absolutely yummy!!!!
