

Learning times tables facts is vital.
Those children who learn their multiplication and
division facts early tend to find accessing
mathematical problems far easier.

All children in Key Stage 2 complete a 'Tables Race'
challenge on the first day of each month. This record shows
how well your child is doing in this very important area of
mathematical knowledge. In addition, they will bring home
a Tables Facts Card which record how well they know each
times table. Please keep this safe.

As the children will self-mark the tables race, we hope you
will check their scores for accuracy and amend if necessary!
We hope this will help you to see which times tables your child
needs to be working on at home in order to improve their score
and/or completion time each month.

In school, we now have Maths Brain Training on Nintendo
DS in every classroom which children access on a daily basis
to help them learn their times tables. There are many
websites which you can also access at home to help your child
learn times tables facts in an interesting way.

Anything you can do at home to help your child learn their
times tables facts will be a tremendous help to them. The next
time you are in the car, have a quick-fire times tables
challenge!

Please sign and return this record to school as soon as
possible. If you would like any further information or

guidance on how you can help your child at home, please do
not hesitate to contact the class teacher.
